PROFESSIONAL SUMMARY

Full Stack Developer with experience in Angular, React, .NET, and SQL Server. Skilled in building scalable web apps, optimizing backend performance, and contributing to CI/CD. Quick learner and team player focused on delivering quality solutions aligned with business needs.

TECHNICAL SKILLS

Languages: C/C++/C#, .NET, Java, SQL, JavaScript, HTML/CSS

Frameworks: Angular, AngularJS, React, Node.js, Spring, Spring-Boot, Hibernate, MVC

Databases: MySQL, PostgreSQL, SQL Server, Oracle

Tools & Tech: Git, Bitbucket, Trello, Jira, Git lab, Jenkins, Docker, AWS, Terraform

PROFESSIONAL EXPERIENCE

Associate Software Engineer | TatvaSoft   **JUN 2023 – Present**

- Built and enhanced a mission-critical Australian enterprise platform using AngularJS, Angular, and .NET Web API, delivering a responsive UI and robust backend services.
- Architected reusable, modular .NET RESTful APIs, ensuring separation of concerns and future extensibility.
- Optimized SQL Server queries and indexes, improving data retrieval performance and reducing load times.
- Streamlined CI/CD pipeline, automating builds, tests, and deployments to accelerate releases and reduce effort.
- Led peer code-review sessions and championed clean-architecture principles, elevating code quality and maintainability across the team.
- Collaborated closely with QA engineers and business analysts to translate requirements into technical solutions, ensuring on-time delivery and alignment with stakeholder goals.

Software Engineer (Intern) **| TatvaSoft**   **JAN 2023 – JUN 2023**

- Developed a project using ASP.NET MVC and SQL Server, enabling smooth build and deployment workflows.
- Implemented secure authentication and order-management modules, strengthening system reliability.
- Optimized stored procedures and database indexes, boosting performance and stability under peak load.

PROJECTS

Budget Calculator | Angular   **SEP 2022 - OCT 2022**

- Built a logic-focused budgeting tool using Angular, allowing users to manage expenses effectively.
- Integrated Excel import/export functionality for seamless data handling and analysis.
- Containerized the app using Docker and deployed it on AWS for scalable, cloud-based access.

Product Management System | Angular, .Net Web API, MySQL Server   **JUN 2022 - AUG 2022**

- A full-stack web app using Angular (frontend) and .NET Web API (backend) with JWT-based auth.
- Implements CRUD, search, sort, filter, and optimized data handling. Designed for scalability.

CI Platform | .Net MVC, PostgreSQL   **APR 2022 - MAY 2022**

- Community Empowerment Portal is a platform designed to foster social responsibility and community engagement through employee-led initiatives. It enables companies to collaborate with local organizations to address critical issues like education, poverty, and sustainability.

EDUCATION

Bachelor of Engineering, Computer Engineering   **May 2023**

Gujarat Technological University, Ahmedabad   **CGPA: 8.7/10**
